Term used	What it means
Single premium (SP) policy	A policy where the customer is required to pay only a one-time premium.
Annual premium (AP) policy	A policy where the customer is required to pay premiums on a regular frequency over a period of time.
Total weighted premium	A way to measure growth of the life insurance industry by taking into account fluctuations in the total premium from single premium business, which is sensitive to market conditions: Total weighted premium = Total weighted single premium + Total weighted annual premium
Weighted single premium	<u>10%</u> of the amount of single premium.
Weighted annual premium	<u>100%</u> of the amount of annual premium. However, where the premium payment obligation is less than 10 years, an adjustment is made. For example, an annual premium policy with a 7-year premium payment obligation will be reflected at 70% of the amount of annual premium.
Linked fund	A fund that pools together premiums paid under investment-linked policies, and invests in a portfolio of assets to achieve the fund's objective. The fund may be managed by the insurer or external fund manager(s). The price of each unit in a fund depends on how the investments of the fund perform. A policyholder may sell his units to take advantage of price gains.
Participating fund	A fund that pools together premiums paid under participating policies. A policyholder receives a share of the investment profit made by the life insurer in the form of a "bonus" or "dividend". Bonuses or dividends are not guaranteed as it depends on how the fund's investments are performing, how many policy claims are drawn from the fund and management expenses incurred.
Non-participating fund	A fund that pools together premiums paid under non-participating policies. A policyholder is not entitled to any profits that the fund may make.
Normal insurer	An insurer registered with MAS to serve the retail market.
Defined market segment (DMS) insurer	An insurer registered with MAS to only conduct non-CPF business and with certain policy size condition.
Tied representative	A person who represents one life insurer, and can advise on the products of this company.
Bank distribution / representative	A person who represents one bank, and can advise on the products of one or more life insurers with which the bank has a distribution agreement.
FA representative	A person who represents one Financial Adviser (FA) firm, and can advise on the products of the several life insurers with which the FA firm has distribution agreements.
Sum assured	Amount of death benefit.
Integrated plan (IP)	It comprises two parts: Part 1 is MediShield Life, run by the CPF Board to cover Class B2/C wards in public hospitals; Part 2 is an additional private insurance coverage, run by private insurers, typically to cover Class A/B1 wards in public hospitals or private hospitals.
Rider	An extra benefit that can be bought on top of the basic policy.
Forfeiture	Policies terminated before any cash value has accumulated.
Surrender	Policies terminated after having acquired some cash value. Commonly, it takes two to three years for cash value to accumulate.
